Rocketbot MSP platform

Free Rocketbot licenses for MSP Partners

MSP Licenses

Corporate Orchestrator 1000 processes + Xperience 1000 Forms ORCH1000+XPE1000

End Client license

Be production S2 (BOT engine S, 2 parallel BOT for production), or Be production L10 (BOT engine L, 10 parallel BOT for production)

*** One S2 or L10 BOT Engine per end customer for either on-premise or in the cloud.

*** The number of free BOT engines may increase if the end customer needs to raise the number of processes to be automated or executed.

Rocketbot requirements for MSP Partners

- BOT engines online. These BOT engines validate their license from the Internet. These BOT engines could be disconnected for non-payment or misuse.
- Only BOTs or processes activated through the Rocketbot Orchestrator are allowed to trigger automations on BOT engines.
- Rocketbot must have full access to the Orchestrator, for utilization auditing and monthly billing purposes only.

Rocketbot services for MSP Partner

Additional free Rocketbot Services for MSPs:

- Rocketbot Studio (Development license) for BOT construction, testing, and debug
- BOT Construction Training
- BOT Construction Certifications
- 5x8 technical support
- Help for creating BOTs, APIs, and integrations

Special Rocketbot licenses for MSPs

Per minute license

Rocketbot Part #	Long Description	Short Description	Per minute Price list MSRP
PML-OCH+XPE Test + 60	One time new customer. Per minute license. Orchestrator + Xperience + BOT engine test, 0 to 60 minutes	PML- Orchestrator + Xperience test, 0 to 60 minutes	0,00
PML-OCH+XPE + 240	Per minute license. Orchestrator + Xperience + BOT engines, 0 to 240 minutes range	PML- Orchestrator + Xperience, 0 to 240 minutes range	0,14
PML-OCH+XPE +1440	Per minute license. Orchestrator + Xperience + BOT engines, 241 to 1440 minutes range	PML- Orchestrator + Xperience, 241 to 1440 minutes range	0,11
PML-OCH+XPE + over 1441	Per minute license. Orchestrator + Xperience + BOT engines, over 1441 minutes range	PML- Orchestrator + Xperience, over 1441 minutes range	0,10

The total number of minutes that the BOT engine uses to execute one or more processes per month defines the price range per minute to be used.

Multiplying the total number of minutes by the corresponding price range, allows you to obtain the final amount the end customer has to pay monthly.

Special Rocketbot licenses for MSPs

Per process license

Rocketbot Part #	Description	Annual price per Process/Form MSRP (list price)	Monthly price per Process/Form MSRP (list price)
PPL-OCH + XPE test 1 + 3	One time new customer. Per process license. Orchestrator + Xperience + BOT engine Test. 1 Process, 1 month	0	0
PPL-OCH + XPE 1 + 12	Per process license Orchestrator + Xperience + BOT engine. 1 processes, 12 months	1524	127
PPL-OCH + XPE 5 + 12	Per process license Orchestrator + Xperience + BOT engines. 2 to 5 processes range, 12 months	1333	111
PPL-OCH + XPE 20 + 12	Per process license Orchestrator + Xperience + BOT engines. 6 to 20 processes range, 12 months	1143	95
PPL-OCH + XPE 100 + 12	Per process license Orchestrator + Xperience + BOT engines. 21 to 100 processes range, 12 months	952	79
PPL-OCH + XPE 1000 + 12	Per process license Orchestrator + Xperience + BOT engines. 101 to 1000 Processes range, 12 months	762	63

The total number of processes that the BOT engine run per month defines the price range per processes to be used.

Multiplying the total number of processes by the corresponding price range, allows you to obtain the final amount the end customer has to pay monthly.
